**Subject:** FW: Set up Pre-brief for Karl on West Lake CAG?

FYI, seems like there is a planning disconnect somewhere...

**I'll check with Karl – see what he is expecting. Karl is suppose to be on travel on Friday. Maybe he knows something I don't know about the trip.....**

Thank you,  
Julie

I do not plan to create a powerpoint. I haven't at past CAG meetings either; it doesn't really work for the random Q&A the audience generates. I just put up a map or figure of the site.

Hi Dan,

**Apparently we received different instructions. Please provide Karl with a copy of the powerpoint you will be using at the CAG meeting, for Karl to review.**

Thank you,  
Julie

Julia, see below. I'm in COR training this afternoon. Could you create this meeting? Attendees should include the usual suspects, Cecilia, Ron, Jeff, me, Ben Washburn, and Matt Jefferson.

Thanks,

**Subject:** CAG meeting material

Dan:

A couple of action items from today's meeting with Karl:

1)Karl would like to view an outline and or presentation that you will provide to the CAG. Topics of discussion to the extent practicable:

- 3<sup>rd</sup> round onsite GW results. Current status of 4<sup>th</sup> round and any possible expectations,
- Results of USGS off-site back ground samples. Preliminary analysis of data
- Completed and current work on site.

Unfortunately, this needs to be completed by COB tomorrow. AS we need to sit down with Karl on Friday. Therefore, you will need to coordinate with Julia on setting this meeting up. Jus for t a aside, Matt will be going with us so the sole purpose of addressing any FUSRAP questions. I've already approach him about that.

Karl would also like to know;

Total number of cores completed  
Number of cores still to be completed

Status of analysis of core samples for rads and vocs

Let me know if you have any questions. You know where I'm at.

Jeff
